SUMMARY

Aspiring Software Engineer with robust experience in AI, software development, and IT. Proficient in C++, Python, JavaScript, and more. Demonstrated success in leading projects and creating innovative solutions. Seeking a Software Engineering Internship to leverage my technical expertise and problem-solving skills.

EDUCATION

Illinois Institute of Technology

Bachelors of Science - BS, Artificial Intelligence with a minor in Software Engineering
GPA: 3.56/4.0

Chicago, IL

Expected Grad: 2026

TECHNICAL SKILLS

Programming Languages: Python, C/C++, JavaScript, HTML/CSS, Kotlin, Dart

Deep Learning Frameworks: TensorFlow, PyTorch, Scikit-learn

Libraries & Tools: AWS, PyCharm, Azure, Google Cloud Platform, OpenAI, React, Salesforce, NumPy, Pandas, OpenCV, NLTK, Git, Docker

EXPERIENCE

AI Engineering Intern - Radical AI

May 2024 - Present

- Collaborated with a team of interns on AI projects, achieving a 33% reduction in fraud detection time by developing algorithms for personalized learning and anti-cheat systems.
- Utilized ChatGPT, VertexAI, Google Cloud, LangChain, and Firebase to generate engaging content, resulting in a 50% increase in user engagement.
- Improved customer interaction efficiency by 35% through the development of chatbot prompts and model fine-tuning.

Founder - Independent Financial Ventures

Jan 2022 – Present

- Grew an investment portfolio from \$150 to over \$95,000 by focusing on NFTs, stocks, cryptocurrency, and web3 technologies, demonstrating a 49,990% growth rate.
- Utilized analytical skills to navigate financial markets and digital trends, providing a 50,000% return on investments.

IT Intern - Goldfield Technologies

May 2022 – Aug 2022

- Developed data flow diagrams with Microsoft Visio to optimize business processes, resulting in a 45% improvement in process efficiency.
- Enhanced ERP project outcomes by gathering requirements and preparing design documents, leading to a 75% increase in project success rate.

PROJECTS

[Portfolio Website](#) - JavaScript, HTML/CSS

- Created a professional portfolio website to showcase my projects and skills, enhancing my online presence.
- Utilized HTML, CSS, and JavaScript to design and develop a responsive and visually appealing website.
- Implemented features such as a dynamic project gallery, contact form, and interactive navigation to improve user experience.

[AI ChatBot](#) - Python/Flask, HTML/CSS & JavaScript

- Reduced latency as measured by faster response times by building a scalable backend with Flask and OpenAI API.
- Increased engagement as measured by longer user sessions by designing a dynamic, responsive frontend.
- Enhanced interaction quality as measured by fewer errors by fine-tuning models and optimizing prompts.

[Online Shopping Cart](#) - C++

- Improved user interaction as measured by seamless item management by developing an interactive cart with object-oriented principles.
- Enhanced application stability as measured by fewer crashes and bugs by implementing thorough testing and debugging practices.

CERTIFICATIONS

- **Amazon Web Services** Cloud Practitioner
- **Microsoft** Certified: Azure Fundamentals
- **Microsoft** Certified: Azure AI Fundamentals
